

Agility Corporate Backgrounder

Agility is one of the world's leading providers of integrated logistics and is the only company in the industry's top 10 with roots in a developing market. The company is pioneering new and global trade flows, bringing efficiency to supply chains in some of the globe's most challenging environments and offering unmatched personal service, a global footprint, and customized capabilities in developed and emerging economies alike.

Agility Global Integrated Logistics

Agility's commercial business, Global Integrated Logistics (GIL), is headquartered in Switzerland. Agility GIL provides supply chain solutions to meet complex and traditional customer needs. GIL offers air, sea and road freight forwarding, warehousing, distribution and specialized services in project, fairs and events, chemicals and fuels logistics.

GIL also supports customers with a range of *specialty services* including:

- **Projects Logistics:** Agility provides logistics solutions for large-scale, heavy-lift projects, whether relocating a factory to Bangkok or moving a satellite dish to a remote elevation in the Andes.
- **Fairs and Events:** Agility ensures smooth handling of fairs and exhibitions around the world and is regularly appointed as the official or approved freight forwarder for major events around the world.
- **Chemicals:** Agility serves customers in the chemical, petrochemical, polymer, biofuels, oil and pharmaceutical industry sectors.
- **Fuels:** Agility provides transportation of bulk and packed petrochemical products for a wide range of regional and multinational customers, primarily in the Middle East and North Africa.

Agility Portfolio Businesses

Agility's unique collection of portfolio businesses includes Agility Defense & Government Services (DGS), a logistics provider to governments, ministries of defense and international organizations. DGS delivers innovative, end-to-end, global supply chain solutions in all environments and provides total visibility and accountability for the supply chain assets it manages.

DGS specialized services include:

- **Relocation services** range from consultation and mortgage assistance to temporary housing and expense management.
- **Specialized Procurement:** Through a subsidiary, Agility procures commercial and government spare parts and systems from around the world to U.S. government customers.
- **Life Support Services:** Agility provides complete catering solutions to defense divisions, government bodies and educational institutions in the Gulf region.
- **Total Asset Visibility:** Agility offers real-time asset tracking anywhere in the world.

Agility's Infrastructure group of companies manages commercial and industrial real estate and offers solutions in customs optimization and clearance, waste management and recycling, aviation services, remote infrastructure and life support through six business entities:

- **Real Estate:** Real Estate has significant experience in developing industrial facilities in emerging markets. Today Real Estate manages large land holdings in the Middle East, North Africa, and South Asia.
- **Metal and Recycling Company (MRC):** MRC serves industrial, commercial and governmental clients in the Middle East with waste management, scrap trading, and recycling solutions.
- **National Aviation Services (NAS):** NAS is an airline ground handling company providing ground support, passenger handling, cargo management, engineering, and lounge services. NAS currently operates in Kuwait, Jordan, and India.
- **Global Clearinghouse Systems (GCS):** GCS is joint venture with the Kuwait General Administration for Customs (KGAC), to modernize, optimize and support Kuwait customs operations for a period of twenty-five years.
- **Inspection and Control Services (ICS):** ICS provides governments around the world with customs modernization, trade facilitation and e-government solutions.
- **GCC Services:** focused on providing life support, catering, and worldwide camp facility construction and management.
