

# Supply Chain Solutions

## *Competitive Advantage for the Chemical Industry*

### **Understanding Your Business**

Operationally efficient and cost effective supply chain networks deliver competitive and commercial advantages. Agility's Specialty Chemical Business understands this imperative because, unlike other solution providers, we have a chemical industry heritage. With this expert knowledge, Agility's Supply Chain Solutions team has the experience and understanding of the challenges your business faces in order to deliver leaner, fitter and more practically flexible supply chain solutions.

### Solutions Experience

Agility's solutions team derives supply chain improvement and cost saving for our customers from a practical, expert led real world approach. The difference is Agility's in-house experience and expertise in respect to chemical industry supply chain solutions. The spectrum for improvement is broad; Agility has proven methodologies, sophisticated modeling software technology and the experience necessary to deliver:

- Supply Chain Network Modeling
- Factory Footprint Review
- Number and Location of Storage Facilities
- Transportation Tactics & Strategy
- Service Lead-time Trade-offs
- Inventory Deployment & Rationalization
- Make, Buy, Sell, Swap, Shed, Trade-offs
- End-to-end Cost-to-Market Visibility
- Landed Cost & Profit Maximization
- Payload & Packaging Rationalization

### Intelligent Logistics

Agility's solutions-driven approach is multifaceted. The solutions team orchestrates the delivery of "Intelligent Logistics", which not only delivers supply chain network improvement strategy and tactics, but combines the power of Agility's beneficial freight procurement position, operations experience and outsourcing expertise in combination with our impeccable Health, Safety, Security and Environment credentials. Agility has secured an enviable track record delivering real financial and commercial value to chemical companies, their customers and their stakeholders.

### A Global Network

With a worldwide network of more than 34,000 employees and 550 offices in 120 countries Agility not only allows your business to take advantage of our heritage and expertise in the chemicals sector, but also to leverage Agility's reach as a global logistics partner. We combine our chemical industry specific knowhow with Agility's global network coverage to provide a truly comprehensive service package.
