

Supply Chain Operations

Outsource Operations - Cost Reduction for Chemical Industry

Understanding

The nuances of the chemical industry cannot be overlooked when seeking to reduce end-to-end costs, both fixed and variable, in terms of sales and operational planning, order processing and the provision of customer services. Agility knows better than any other service provider the experience and expertise necessary to deliver safe, efficient, seamless and cost effective transactional command and control. Agility understands this through our impressive chemical industry heritage, our people and our customers.

Operational Experience

Across the globe, Agility can support your order processing requirements with a dedicated team of chemical industry professionals. These expert teams are supported by integrated real time information systems to provide total transparency and total confidence. Operational best practices are supported by a comprehensive set of KPIs, performance metrics and dashboards. With decades of experience, Agility is confident that your specific operations requirements will be met:

- Full Operations Outsourcing
- Order Fulfilment Management
- Inventory Management & Allocation
- Loading Slot Management
- Documentation Services
- Customer Service Functions
- Real-time ERP Updates
- Freight Invoice Audit & Pay
- Performance Reporting & Dashboards
- Cargo Tracking

Flexibility

With committed operations teams, Agility can deliver cost effective outsourcing solutions that allow clients to mitigate fixed and reduced variable costs while improving service and operational visibility. This approach provides flexibility and scalability along with total peace of mind knowing that your operation is in safe, experienced chemical industry hands.

A Global Network

With a worldwide network of more than 34,000 employees and 550 offices in 120 countries, Agility not only allows your business to take advantage of our heritage and expertise in the chemicals sector but also to leverage our reach as a global logistics partner. We combine our chemical industry specific knowhow with Agility's global network coverage to provide a truly comprehensive service package.
