

Oil & Gas Logistics

Global Network, Local Expertise for All Your Needs

A Trusted Partnership

Strategically located in all major oil and gas centers around the world, Agility Project Logistics is a key provider of Oil and Gas logistics services. Our global network of experienced international teams manages the logistics and supply chain requirements for your oil and gas materials and equipment. This knowledge of the industry and established relationships means your equipment and supplies, rigs, bulk or packaged goods, and heavy lift transports are delivered where you need them when you need them.

Oil & Gas Logistics

Providing you with efficient and cost-saving solutions is the goal of our team of dedicated and innovative professionals. Practical options for your cargo transport are the common sense answers you need to the complex challenges of the oil and gas market. Some of these are:

- Procurement and Expediting
- Warehousing and Distribution
- Air, Sea and Road transport
- Export Compliance
- Line Item Material Tracking
- Export Packing – Domestic and Foreign
- 24-hour Site Management
- Customs Clearance
- Camp Catering Services
- Threat Management Services

Peace of Mind

You, the customer, are our number one priority. Knowledgeable Agility professionals are dedicated to your oil and gas logistics service needs, assuring your cargo is delivered through 24-hour tracking. By bringing best practices from around the world, you receive consistent performance moving your oil and gas logistics equipment and supplies anywhere in the world. Agility's unique combination of experience, excellence, and innovation leads to peace of mind for our customers around the world.

Commitment to Customers

For over 25 years our personalized service and expertise have reduced customer costs by applying Agility's strategic procurement and operational experience. Our company is committed to total compliance covering Ethical Business Practices; Health, Safety and Environmental concerns; Foreign Corrupt Practices Act regulations; as well as Hazardous and Emergency Preparedness training. Through the experience of our international team, we at Agility Project Logistics are constantly striving to raise the standards of excellence for our industry. From the people of Agility to our strategically located offices we are focused on a commitment to customers.
