

Road Freight Management

Customizable Products for Reliable Deliveries

Global Support

Regional Networks with Worldwide Dedication

While Agility's regional Road Freight networks tap expertise and equipment on a local level, they are backed by the processes, people and purchasing power of a global enterprise. Every day, more than 22,000 logistics professionals in over 100 countries are united by a pledge of personal service and energized by seeing our customers succeed. Our Road Freight specialists are a crucial part of our worldwide freight forwarding capability, which includes Air, Sea and Sea/Air products. In addition, Agility provides individual supply chain consultation through our logistics experts and brings specialized knowledge to specific industries, like Project Logistics, Chemicals and Fairs & Events, through our specialty businesses. Together, these groups form Agility Global Integrated Logistics, giving you access to vast resources and a worldwide network of dedicated professionals.

Road Freight Experts

Committed Partners for Dependable Performance

When you have a trusted Road Freight partner who knows as much about your business goals as transportation issues in your region, you have Agility's brand of personal service. Through clear communication, thoughtful collaboration and dedicated follow-through, our Road Freight management teams seek to understand your objectives and create solutions that deliver. We combine simple, standardized Road Freight products with a host of customizable options to achieve the ideal balance of lead-time, capacity, frequency and cost. Whether it means providing same day delivery or hauling hazardous cargo, Agility's freight specialists know the key to a successful supply chain is a committed relationship with our customer.

Road Freight Products

Wide Range for Greater Flexibility

Powered by our own fleet of vehicles and carefully selected preferred haulers, Agility's Road Freight products provide you with the right capacity allocation and equipment for every type of shipment. We have direct access to all prime capacities, including Full Truck Load (FTL) and Less than Truck Load (LTL) transports, as well as specialized equipment like refrigerated vehicles or double stacking trailers. Agility Road Freight experts select and combine the most appropriate services for your requirements, from a comprehensive range of options, including pick-up and export handling, import handling and delivery, including customs clearance. With around-the-clock responsiveness for urgent inquiries, we deliver on-time performance you can depend on.

Product Range:

Premier

Choose precise pick-up and delivery times for total control of your critical shipments. Our direct road transportation ensures speed and load availability at any time.

Value

Save money by shipping within our predetermined timeframes. Our frequent and reliable schedules keep your shipments moving efficiently and economically.

Tracking Tool for Total Visibility

Agility's online tracking tool gives you the peace of mind that comes with complete transparency. Our proprietary technology provides easy, instant access to your road freight's status, and allows you to follow a single shipment in real time and display essential specifications, including export data in multiple file formats.

Road Freight Options

Configurable Choices for Additional Attention

Agility's numerous elective services bring a customizable dimension to our standard Road Freight products. Our easy-to-add options meet your business needs and provide your shipments a further degree of personal involvement.

Forwarding Service Options

We supply additional care and special handling, which includes:

- Temperature-Controlled Transportation
- High-Value Cargo Transportation
- Transport Insurance
- Short-Term Storage
- Bonded Warehouse Storage
- Customs Clearance
- Window Slot Pick-Up and Delivery
- Hazardous Cargo Transportation
- Express Pick-Up and Delivery
- Fuel and Liquid Transportation

Logistics Service Options

Our freight experts take care of your everyday business needs that go beyond pick-up and delivery, including:

- Merge in Transit
- Packing/Repacking
- Labeling
- Palletizing
- Just-In-Time Delivery
- Floor Delivery
- Reverse Logistics
- Cash On Delivery
- Empty Packaging Return

Specialty Businesses

When your task requires specialized knowledge beyond standard freight forwarding products, Agility calls on its experienced network of Fairs & Events, Project Logistics and Chemicals experts. Our specialists understand the distinct business challenges unique to these sectors, and are able to design and execute comprehensive solutions tailored to your objectives.

Agility Logistics Tools

Our collection of state-of-the-art logistics tools allows you to view shipment status, manage inventory, schedule actions and monitor security. These sophisticated systems streamline communication between networks and provide powerful search capabilities and detailed performance reporting for better visibility and control of your supply chain.

Agility's commercial business, Global Integrated Logistics (GIL), is headquartered in Switzerland. Agility GIL provides supply chain solutions to meet complex and traditional customer needs. GIL offers air, sea and road freight forwarding, warehousing, distribution and specialized services in project logistics, fairs and events, fuels and chemicals.

Agility's unique collection of portfolio businesses includes Agility Defense & Government Services, a logistics provider to governments, ministries of defense and international organizations. Agility's Infrastructure group of companies manages commercial and industrial real estate and offers solutions in customs optimization and clearance, waste management and recycling, aviation services, remote infrastructure and life support.
