

## Comprehensive Relocation Solutions

### Moving Households & Lives

The relocation of an employee is a vital corporate strategy and human resources function. To achieve a return on a relocation investment and productive end result, the foundation of a corporate move should begin with the individual employee's needs. A corporate relocation program requires expertise in dealing with issues such as immigration law, volatile economies, and employee finances in addition to the logistical aspects such as transportation, real estate, and family issues.

### Agility Makes Your Employees Feel at Home

As a specialized division of Agility, we combine focused relocation expertise with a corporate network spanning over 100 countries. Our global resources give your business the advantage of local expertise across a multitude of geographies and cultures. Agility's Relocation division ensures that your employees feel at home, no matter where business may take them. We understand that when our clients relocate their most valued asset, people, it is vital that the return on investment through a return to productivity is a foremost concern.

## Our Work

Since 1986, our Relocation experts have worked with the world's largest multi-national corporations to move over half a million employees and their possessions to locations around the world. With coverage reaching across the Americas, Europe, Asia and the Middle East, we provide quality relocation to a range of destinations, including key developing countries.

In addition to providing comprehensive relocation services to transferees, we consult with client staff to design relocation policies and programs that uniquely support their business and financial initiatives.

### *The Agility Difference*

Agility is committed to providing custom relocation programs to clients of all sizes anywhere in the world. Having gained a reputation as a proven expert in both U.S. and International relocation management, Agility is prepared to work with relocation managers to determine the most appropriate service and cost effective programs available. Agility improves your relocation experience with:

- Single Source Accountability
- Advanced Technology for Constant Communication
- Tailored Processes to Meet Specific Client Needs
- Financial Stability of a \$6.8 Billion Company
